🌐 www.vittorioguida.it

I am a research affiliate at the Department of Economics and Management of the University of Trento (Italy). I study how individuals, groups, and organizations make decisions in uncertain environments. I work with incentivized laboratory and online experiments and agent-based simulations. I am equally drawn to the analysis of both quantitative and qualitative data, and find the combination of the two a particularly productive way to study organizational phenomena. I am particularly passionate about formal theoretical models of organizational behavior and their implications for strategy and decision-making.

Research interests: behavioral strategy, organizational learning, intergenerational resource management decisions, top management teams, agent-based models and simulations

Education

- Nov 2018|Dec 2022 **Ph.D. in Economics and Management**, *University of Trento*, Trento, Italy
Thesis: *Three Essays on Exploration and Exploitation: Behavioral Insights and Individual Decision-Making*
Supervisors: Prof. Luigi Mittone (University of Trento) and Prof. Azzurra Morreale (Lappeenranta-Lahti University of Technology)
- Jan 2015|Jun 2017 **Master's Degree in Government and Public Administration (LM-63)**, *University of Salerno*, Fisciano (SA), Italy
Grade: 110/110 cum laude **Supervisor:** Prof. Roberta Troisi; **Co-supervisor:** Prof. Adalgiso Amendola
- Sep 2011|Dec 2014 **Bachelor's Degree in Administration and Organization (L-16)**, *University of Salerno*, Fisciano (SA), Italy
Grade: 110/110 cum laude **Supervisor:** Prof. Roberta Troisi

Academic Positions

- Feb 2025|Feb 2026 **Postdoctoral Research Fellow**, *University of Trento, Department of Economics and Management*, Trento, Italy
PRIN 2022 Project “*Saving natural resources: an experimental-behavioral approach to intertemporal environmental decisions*”. Designed and programmed intergenerational experiments; managed data collection on Prolific; conducted analysis in R and Python; co-authored manuscripts.
Scientific Coordinators: Prof. Sandro Casal, Prof. Luigi Mittone.
- Feb 2023|Feb 2025 **Postdoctoral Research Fellow**, *University of Trento, Department of Economics and Management*, Trento, Italy
CARITRO Project “*Governance and Environmental Sustainability: an experimental laboratory for organizations in the Province of Trento*”, in collaboration with the Trento Chamber of Commerce. Designed experiments; conducted statistical analysis; results published in *Futures*.
Scientific Coordinator: Prof. Luigi Mittone.

Skills

- Statistical analysis R – data analysis, Monte Carlo simulations (Advanced); Python – data cleaning, wrangling, and analysis (Advanced)
- Simulation Python *Mesa* – agent-based modeling (Advanced)

Experiment design	oTree – programming and deployment (Advanced); OpenAI API integration (Advanced); HTML, CSS, JavaScript (Intermediate)
Web scraping	BeautifulSoup (Basic)
NLP	NLTK (Basic)
Typesetting	L ^A T _E X (Advanced)

Teaching Experience

- 2019|2025 **Teaching Assistant**, University of Trento, Department of Economics and Management, Trento, Italy
Lab 1: Market Analysis – 3 editions (2023–2025); *Laboratorio di Analisi dei Mercati* – 5 editions (2019–2025).

Publications

- 2025 Klaser, K., **Guida, V.**, & Mittone, L., *Governance e sostenibilità ambientale, Economia Trentina*, 1/2025, 26–30. — *Reachout publication*.
- 2025 **Guida, V.**, Klaser, K., & Mittone, L. *Building sustainable futures through soft institutional interventions in the climate change context: an intergenerational experiment. Futures*, 103531.
- 2024 **Guida, V.**, Mittone, L., & Morreale, A. *Innovative search and imitation heuristics: an agent-based simulation study. Journal of Economic Interaction and Coordination*, 1–52.
- 2018 Troisi, R., & **Guida, V.** *Is the appointee procedure a real selection or a mere political exchange? The case of the Italian Health-Care Chief Executive Officers. Journal of Entrepreneurial and Organizational Diversity*, 7(2), 19–38.

Working Papers & Work in Progress

Benuzzi, M., **Guida, V.**, Morreale, A., & Mittone, L. *Can AI curb the disposition effect? An experimental study with ChatGPT*. Under review, *Experimental Economics*.

Benuzzi, M., & **Guida, V.** *Organizational decisions and financial returns: real earnings management in an NK framework*. Working paper.

Guida, V., Fulci, A., & Danese, G. *Firm adaptation to climate change: insights from stochastic modeling with a simulation study*. Working paper.

Guida, V., Casal, S., & Mittone, L. *Intertemporal exploitation of natural resources with overlapping generations: an experimental approach*. Working paper.

Conferences & Seminars

- Feb 2026 “Workshop | Acting for Tomorrow: Evidence and Behavioral Insights for Managing Shared Resources”, University of Trento
- Dec 2025 “II Symposium on Advancing Sustainability Research with Experimental Methods”, University of Padova
- Jun 2025 Society for the Advancement of Behavioral Economics (SABE) Annual Conference, University of Trento
- Jun 2024 TOM Society Annual Meeting, ESSEC Paris
- Sep 2023 WINIR Conference, Catania

Aug 2023 TOM Society Annual Meeting, Harvard Business School, Boston

Conference/Workshop Organization

- Feb 2026 “Workshop | Acting for Tomorrow: Evidence and Behavioral Insights for Managing Shared Resources”, University of Trento
Member of Organizing Committee
- Dec 2025 “II Symposium on Advancing Sustainability Research with Experimental Methods”, University of Padova
Member of Scientific Committee
- Dec 2024 “Symposium on Advancing Sustainability Research with Experimental Methods”, University of Padova
Member of Scientific Committee
- 2021 “CEEL Workshop on Decision-Making”, University of Trento
Member of Organizing Committee
